Vol. XII., No. 3

Bowling Green State University

July 25, 1988

First you don't see them...now you do. The front steps at Williams Hall, a long-time favorite spot where students like to sit and watch University life go by, are back after a brief absence. A crumbling foundation made it necessary to tear down the steps and completely re-build them. In the meantime, the rest of the building was gutted and renovated. Offices are expected to move back in in December.

Signs of summer: Construction on campus

The summer months are a time for productive activity on campus. A variety of construction and renovation projects have been taking place while the bulk of the University's population is off enjoying vacations.

"Last summer, we had a number of large projects going on like the addition to the Business Administration Building," said Robert McGeein, director of capital planning. "It might not look as busy this summer but actually there is a lot going on. Right now there is a lot of project planning, design and preparatory work happening."

Some of the more obvious summer projects include renovation of the Falcon's Nest in the University Union. McGeein said although it was a large project, the \$400,000 make-over was completed and open in a six-week period.

Work continues on the \$2.6 million renovations to Williams Hall. The project was started last summer by completely gutting the structure and since then, new windows, a new roof and an elevator have been installed. The upper floors in the rotunda were removed to create a multi-level atrium.

McGeein said work on the building is slightly ahead of schedule and should be finished this fall. It should be back in use by January, he said.

Construction of the \$3.6 million addition to

the Business Administration Building has been completed and will be in service for students returning to classes in August.

Overman Hall also is getting a make-over although this summer the work is being concentrated in Overman North. The two-phase project will occur over a two-year period as renovations will include new heating ventilation, plumbing, windows, laboratories and a new roof. The project is expected to be completed in the fall of 1989.

At Doyt L. Perry Stadium, the finishing touches are being put on the new Fitness Center Weight Room which will provide an area for weight training for varsity athletes. Ken Kavanaugh, assistant athletic director, said the facility is located under the football press box where there used to be racquetball courts. Once the rubber flooring and new weights are installed, the facility will be ready for use, he said.

A number of maintenance projects are occurring in the University's residence halls and dining halls. Roland Engler, University architect, said Offenhaur Tower West is usually used to house students in the summer but has been taken off-line during June, July and August. Work is being conducted on the elevators, a new fire alarm system has been installed, and the building has received a new roof.

Other residence halls receiving repairs include Conklin East which is under-going exterior masonry work; Kohl Hall has new windows; and the two halls, along with Founders Hall, will be re-carpeted.

In addition, McDonald Dining Hall will have a new "countryside" theme with its \$70,000 renovations that include new carpeting and furniture.

Engler also said the Commons is receiving some repairs with the rebuilding of the west exterior patio. The east patio was repaired last summer.

Summer wouldn't be summer without work being conducted on some of the campus's many parking lots. Jean Yarnell, manager of parking and traffic, said the Union Oval area and Lot 13, west of the Eppler complex, have been resurfaced. Other lots that have been patched and/or sealed include Lot A by University Hall, Lot G in front of the Commons and Lots N and 14, by the Student Services Building.

Also, all of the lots have been re-striped.

Yarnell said plans are currently underway for the construction of a new 150-car lot near Offenhaur. The lot is planned to create more spaces for resident students.

Cleveland judge fills trustee post

A Cleveland judge has been appointed by Governor Richard Celeste to the University's Board of Trustees. Judge C. Ellen Connally will serve a nine-year term ending May 16, 1997.

She succeeds William Spengler, whose term expired in May.

Connally, 43, graduated from the University in 1967 with a degree in education. She also is a graduate of the National Judicial College of the University of Nevada at Reno and received her law degree from

C. Ellen Connally

Cleveland Marshall Law School.

She served on and was an officer of the

BGSU Alumni Association Board of Trustees from 1975-78. A member of the Cleveland Women Lawyers and the National Conference of Black Lawyers, she also is a founding member of the Black Women Lawyers Association of Cleveland.

As Cleveland municipal court judge, Connally is the first black woman to be elected to a judgeship in Ohio without first being appointed. Prior to her election, she was an attorney and general referee for Cuyahoga County Probate Court.

In addition, Connally has been active in various Cleveland civic projects, including the Weekend Intervention Program at Deaconess Hospital of Cleveland where she serves as a volunteer lecturer. The self-help program is for people who have been convicted of driving while intoxicated.

Cooperation is key to success of research park

A high level of cooperation between the University, state officials, Bowling Green's mayor's office, Chamber of Commerce and the private sector have provided the support toward the development of a research park in Bowling Green.

Philip Mason, executive assistant to the president, said there has been much enthusiasm for the project and "many facets have supported the idea with their time and input into the plans."

Tuesday, July 19

Classified Staff Council Meeting, 10 a.m., Firelands College. One van will leave the POM

Classified Employment Opportunities

The following classified positions are available:
New vacancies

Posting expiration date for employees to apply: 10:30 a.m. Friday, July 22. (* indicates that employee(s) from within the department is/are bidding and being considered for the position.)

7-22-1	* Clerical Supervisor Pay Range 26 Admissions
7-22-2	Clerk 1 Pay Range 2 University Computer Services Permanent, part-time
7-22-3	* Clerk 2 Pay Range 3 Student Health Services Academic year, full-time
7-22-4	Food Service Manager 2 Pay Range 28 Food Operations
7-22-5	Food Service Manager 3 Pay Range 30 Food Operations
7-22-6	Secretary 1 Pay Range 26 Applied Statistics and Operations Research
7-22-7	Security Officer 1 Pay Range 23 Parking and Traffic Academic year, part-time

Faculty/staff positions

The following faculty positions are available:

Applied Statistics and Operations Research: Instructor. Contact James A. Sullivan (2-2363). Deadline: July 18.

Chemistry: Assistant professor. Contact M.A.J. Rodgers, Center for Photochemical Sciences (2-2034). Deadline: Nov. 1 (or until position is filled). Also, assistant professor-chemistry. Contact Doug Neckers (2-2031). Deadline: July 18.

School of Art: Assistant professor, art education (temporary). Contact Thomas Hilty (2-2786). Extended deadline: July 22.

The following administrative positions are available:

Admissions: Assistant/associate director. Contact Annmarie Heldt (2-2558). Deadline: August 5.

Athletic Department: Assistant men's hockey coach. Contact Chair of the Search and Screening Committee, c/o the athletic department (2-2401). Deadline: August 1.

Intercollegiate Athletics: Assistant coach, men's and women's swimming. Contact Chair, Search and Screening Committee (2-2401). Deadline: July 28.

Office of the Vice President for Operations: Vice president for operations. Contact Kay Meier (2-2211). Deadline: Position expected to be filled by Sept. 1.

Population and Society Resource Center: Microcomputer specialist. Contact Jerry W. Wicks (2-8648). Deadline: July 20.

Women's Studies: Assistant director of Women's Studies. Contact Women's Studies Search Committee, c/o the College of Arts and Sciences (2-2015). Deadline: July 30.

parking lot at 8:30 a.m., and the second will leave from the University Union at 8:30 a.m.

UAO Comedy Break, featuring local comedian Craig Hergert, 11:30 a.m., Union Oval. Free.

Huron Playhouse Theatre, "The Curious Savage," 8 p.m., McCormick School, Ohio Street, Huron, through Saturday (Aug. 23). For ticket information, call 433-4744.

Wednesday, July 20

UAO Sweet Wednesday, free popsicles or watermelon, 11:30 a.m., Off-Campus Student Center courtyard (or inside if it rains).

UAO Movie, "Blade Runner," 8 p.m., Eva Marie Saint Theatre, University Hall. Free.

Thursday, July 21

UAO T-Shirt Tie Dye, 11:30 a.m.-2 p.m., Union Oval. Bring own t-shirt or buy one from UAO for \$4. Dye is supplied free.

Friday, July 22

UAO Ann Arbor Art Fair Trip, leaving the Union Oval at 9 a.m. and noon. Cost of transportation is \$5.

Monday, July 25

UAO Monday Musicians, featuring the Woodwind Quintet, 11:30 a.m., Union Oval. Free.

WBGU hosts producers

Producers from 14 PBS stations across the midwest are gathering at WBGU-TV this week for the third annual CEN (Central Education Network) Regional Producers' Workshop. Bowling Green, chosen as the midwest site for the two-day national event, will host 37 participants Thursday and Friday (July 21 and 22).

Public television producers from around the country have been invited to attend this regional event that is designed to bring producers and their ideas closer together.

Watch your weight

The Weight Watchers program will meet for a six-week period starting July 21 through August 25. The series will run from noon to 12:30 p.m. every Thursday at a cost of \$51 per participant.

Interested employees should contact Ruth Friend at 372-2236 by Tuesday (July 19). A minimum of 16 participants is necessary to conduct the class.

The program will be held in the 10th floor conference room of the Administration Building.

Buy season tickets

Applications are now available for season tickets for the Falcon football games. Employees can obtain applications at the Memorial Hall ticket office or have one sent to them by calling 372-2762.

Season chair tickets for both the public and University faculty and staff are \$40. A season bench ticket for the public is \$30 and for a faculty/staff member is \$27. A junior season bench ticket is \$20 and must be accompanied by an adult season ticket.

Faculty and staff may use their University charge account when purchasing football tickets.

Positions are filled

Eleven new administrative employees have joined the University staff. They are **Daniel Greenberg**, managing editor, Social Philosophy and Policy Center; **Holly Hoffman**, part-time conference assistant, College of Health and Human Services; **Jeffrey Koleno**, assistant to Learning Achievement Center, Firelands College; **Donna Nelson**, acting director of general studies writing, English; and **John Sheirer**, assistant director, general studies writing, English.

Also, **James Treeger**, director central conferences and associate director of University Union non-food operations; **Marjorie Hufford**, director of records, registration and records; and **Joe Trevino**, assistant director, admissions office.

Also, **Charles O'Brian**, diving coach, intercollegiate athletics; **Jan Nolte**, assistant director, alumni affairs; and **Keith Instone**, research associate, computer science.

For sale

The business education department has for sale a variety of miscellaneous office/classroom furniture which includes desks, chairs, file cabinets, storage cabinets, book cases and calculators.

Other departments may view these items Thursday and Friday morning (July 21 and 22) by contacting Deb in 306A Hayes Hall. For more information, call Robin at 372-2901.

Monitor

The *Monitor* is published weekly by the Office of Public Relations for faculty and staff of Bowling Green State University. The deadline to submit material for the July 25 issue is 5 p.m. Tuesday, July 19.

Research from the front page

However, he said plans are still in the preliminary stages as the University waits for final word on a \$250,000 grant from the Ohio Department of Economic Development that would be the initial funding for the 88-acre research park. The development would be located east of Interstate 75, stretching from Bowling Green Road East (Wooster St.) to the city's sewage treatment plant along Dunbridge Road.

"It's too preliminary to say much about the project when all the specifics haven't been worked out yet," Mason said. "We're concerned about the success of this program if we don't receive more than the \$250,000 and we're hoping that grant amount might yet increase. We've had positive indications of the \$250,000, but nothing is in writing yet." Mason said he is optimistic the state will support the park. "Conversations are still on-going between the economic office and (Senator Paul) Gillmor. We're going to make it work one way or another," he said.

Current plans for the park provide space for as many as 15 research facilities. Each facility would finance construction of its own building. To build in the park, facilities must: provide an opportunity for University faculty, students and staff to interact with the facility's research activities; have activities that would enhance the economic base of the city of Bowling Green; and be compatible with the environment (non-polluting activities).
